INTERVIEW SUMMARY

Sir:

This is a summary of the telephonic interview conducted on November 9, 2007. During the interview the Yoshida and Howard references cited in the August 27, 2007 Office Action were discussed. Applicant presented arguments distinguishing the present invention from the references, and proposed amending claims 1 and 7 to incorporate limitations contained in claim 6 in order to further overcome the references. The Examiner considered the arguments and amendments helpful, but was unable to reach agreement with the Applicant concerning whether they would put the application in condition for approval. The Examiner proposed further amending Claim 1 to incorporate limitations of claim 2, and amending claim 7 to incorporate

limitations of claim 9. The Examiner stated that these amendments would likely place the application in condition for allowance, subject to a supplemental prior art search.

Respectfully submitted,
